

Already enrolled in BCBS coverage?

To check drug coverage and prices based on your specific plan coverage please access your [MyHealthToolKitFL](#) portal. Through your MHTK portal, under **My Plan & Benefits**, you will see **Pharmacy** - click on **Pharmacy Benefits**

From here you are re-directed through SSO to OptumRX where you can find several pharmacy tools specific to your coverage, including drug lists and pricing a drug.

The **Drug Pricing and Information** tool allows you to search by drug name, customize for dosage, quantity, supply and other personal preferences to produce results that will help you determine the best and lowest cost network pharmacy to fill your prescriptions specific to your exact benefit plan:

How to switch

If you are prescribed a non-preferred medication that is on the **excluded** on the formulary **Drug List**, talk to your doctor to see if a covered alternative drug is a good option for treating your condition.

Of course, you and your doctor make the final decision about the medications that are right for you.

If your doctor believes no alternative drug will work for your medical condition, you or your doctor can request a formulary exception to have a non-formulary drug covered by calling the precertification number on the back of your BCBS ID card.
